Client Strategies (Inside the Minds):

Health Care Law Enforcement and Compliance provides an authoritative, insider's perspective on all the recent developments in the government's health care policies and how they are impacting practitioners and their clients. Written by partners from some of the nation's leading law firms, this book guides the reader through the current trends in health care law, including the latest guidance on the Patient Protection and Affordable Care Act (PPACA), the False Claims Act, the Stark Law, and the Anti-Kickback Statute. These healthcare law experts review and discuss the many enforcement actions taken against alleged perpetrators of fraud, waste, and abuse, and discuss what clients and their lawyers must do when faced with a claim or investigation. In this rapidly changing compliance environment, these industry leaders reflect on the challenges clients face, the future of health care law enforcement, and the role that lawyers will continue to play in ensuring their clients' compliance. The different niches represented and the breadth of perspectives presented enable readers to get inside some of the great legal minds of today, as these experienced lawyers offer up their thoughts on the keys to success within this time of heightened enforcement. Inside the Minds provides readers with proven business and legal intelligence from leading C-Level executives and lawyers. Each chapter offers thought leadership and expert analysis on an industry, profession, or topic, providing a future-oriented perspective and proven strategies for success. Each author has been selected based on their experience and C-Level standing within the business and legal communities. Chapters Include: 1.
