Client Strategies (Inside the Minds):

With the passage of the Affordable Health Act, the health care industry has changed dramatically: health care providers must navigate many new laws and changes to the old ones. Additionally, new means of investigating health care fraud combine with new or more strictly enforced penalties for violation, creating an enforcement climate in which everyone must stay on their toes. Now more than ever, health care attorneys need to understand the legal environment and the latest developments. Health Care Law Enforcement and Compliance is a valuable tool that will help you meet this goal, providing expert perspectives on the nuances of the ACA, the best methods of working with various enforcement agencies, and the most effective strategies for setting up and maintaining compliance plans. These top lawyers also share their opinions on recent significant cases, such as Kane v. HealthFirst, Inc. and U.S. ex rel. Drakeford v. Tuomey Healthcare System, Inc., and explore how those decisions might shape health care law in the future. As the US health care system continues its dramatic shifts, attorneys can look to this book for guidance. Inside the Minds provides readers with proven business and legal intelligence from leading C-Level executives and lawyers. Each chapter offers thought leadership and expert analysis on an industry, profession, or topic, providing a future-oriented perspective and proven strategies for success. Each author has been selected based on their experience and C-Level standing within the business and legal communities. Chapters Include: 1. William W. Horton, Partner, Jones Walker LLP -"Key Developments in Provider Reimbursement, Regulation and Enforcement in the New World of the Affordable Care Act" 2. David M. Maria, Partner, Shook Hardy Bacon LLP -"Government Investigations and Enforcement and the Importance of a Corporate Health Care Compliance Program" 3.
