Daniel W. Martin : Henke's California Law Guide before purchasing it in order to gage whether or not it would be worth my time, and all praised Henke's California Law Guide:

A soft-cover single volume, this book is the definitive source for doing legal research in California. The author is the director of the Pepperdine School of Law and a law professor. His work is a continuation of professor emeritus Henke from Hastings School of Law in Berkeley. It covers the complete spectrum of constitutional, statutory, judicial, and regulatory law in California. The new edition includes a very detailed analysis of ballot measures, which is a very active source of law in the state. Appendices include complete libraries of the LEXIS-NEXIS and Westlaw on-line California databases. This book should be required reading for all first year law students, new attorneys, and a ready reference book for all experienced attorneys and judges.
