**Robert D. Miller : HIDDEN (Problems in Health Care Law)** before purchasing it in order to gage whether or not it would be worth my time, and all praised HIDDEN (Problems in Health Care Law):

0 of 0 people found the following review helpful. Keep it!By RoaringqueenJust like traditional laws do not change often, neither do health care laws. This text you can reference years after the course has ended and will still be useful as you manage and lead others in your health care field. It is not only for managers/leaders, but those practicing medicine as well. Keep it!3 of 3 people found the following review helpful. Problems in Health LawBy AnnieA a part of Master Degree of Health Law Program reading, this is a very good book, well organized,easy to read and

understand.I have seen american health care system in different point of view through this book. Well explained everything that I ever questioned about american healthcare.0 of 0 people found the following review helpful. great condition, came within expected time frame.By Samantha TalbertGreat condition when received, needed it to my healthcare law class and it is exactly what we were supposed to get. GREAT BOOK VERY IMFORMATIVE.

The Ninth Edition of Problems in Health Care Law has been extensively updated and restructured to utilize the problems approach. This classic book deliberately seeks to state expressly the general principles - both of the underlying conflicting public policies and the legal solutions to those problems.
