Sherri Donovan : Hit Him Where It Hurts: The Take-No-Prisoners Guide to Divorce--Alimony, Custody, Child Support, and More before purchasing it in order to gauge whether or not it would be worth my time, and all praised Hit Him Where It Hurts: The Take-No-Prisoners Guide to Divorce--Alimony, Custody, Child Support, and More:

0 of 0 people found the following review helpful. A must read for all men, especially before you get married. By William Sumrall Guys, before you take the plunge and get married, look before you leap. Take this book very, very seriously. You can take steps to protect yourself from financial ruin by reading the opposing force's game plan. 2 of 2 people found the following review helpful. So much information! By Larex Croft You must read this book if you are being victimized in your divorce. It explains the different mental states of your spouse and predicts what they will do next using scientific mental analysis! It was right for me and this book helped me stay several steps ahead of my spouse THANK YOU THANK YOU THANK YOU!!!! 2 of 3 people found the following review helpful. Good for women and men By Gramma 13 I got this for my daughter, but too late. Her attorney was no match for her husband's and she will not get enough \$\$ for child support, let alone enough to live on. Husband used a great trick... They owned a business together with their son. But Dad was too upset that she filed for divorce (his addiction to alcohol pornography was the last straw) so he couldn't work. The son carried the business made 70% of sales. So on paper, dad doesn't make enough \$ to support her and the kids. can't get blood out of a turnip. But now that the divorce is final, he feels better is selling like crazy... The negative reviews seem to reflect the pain of men who have been "had" in their divorces. If they had used this book, perhaps they would have been protected. Sherri writes to men in the book also; if they had read the book they would have known that.; if they had read the book perhaps they would be writing a different review.. I've been married over 50 years and we were unprepared for the attack that our daughter endured nor equipped with knowledge of the law to help her. Had we read this book earlier, there would have been a different outcome I'm sure.

Acclaimed matrimonial attorney Sherri Donovan shows women how to take the offensive in the bloody game we call divorce. With her take-no-prisoners approach, women everywhere can ensure that they gain their freedom without sacrificing their health, their wealth or their well-being, not to mention that of their children.

About the Author Sherri Donovan (New York, NY) is one of the top matrimonial lawyers in New York City and the country. She has been profiled and interviewed by every major metropolitan newspaper and magazine, as well as the local and national news and radio stations, Lifetime, Court TV, Montel Williams, Crain's New York and is a contributor to Divorce Magazine.
