3 of 3 people found the following review helpful. A great comparison of the ethical teachings of the world's religionsBy Roger W. ReiniThis book gives an excellent comparison of the ethical teachings of many of the world's great religions, setting forth how they are common and on how they differ. Within each topic, the religions are discussed chronologically from oldest to youngest, showing how the teachings have evolved over time and have been

adapted to the needs of society at the times they were revealed.0 of 0 people found the following review helpful.
RecommendedBy C. DobsonI am in still in the process of reading this along with an interfaith group. I really like the authors attempt to pull from all of the major faith traditions compatible truths. Understanding this could go a long way toward world peace.

Argues that, in a post 9/11 world, only a global ethica relatively specific set of shared ethical principleswill ultimately be sufficient to support the positive, unifying and harmonizing forces operating in the world today. Original.
