We have now used it to create our own family trust without having to spend 1500.00 for the attorney who wanted us to provide our family with a "LAST BILL AND TESTAMENT" ! The attorneys want you to allow your estate to move into probate hell. Many times the only one who profits from your passing on to eternity are the courts and the attorneys.Know your rights ! Read this book before the attorneys turn your family into a living hell !Have peace of mind knowing that you have taken care of your loved ones and not your attorney !1 of 1 people found the following review helpful. This is a must have for anyone who has thought about setting up a trust for their family.It's well written, well designed content and has years of experience packed into this large format book.Check it out - it should be the #1 book to read on this topic. I expected a very boring hard to read book about Living Trusts. Luckily, it was just the opposite. It was a funny, easy read that was very

detailed and helpful in setting up a Living Trust. I would highly recommend it. It details the history behind Living Trusts and their importance in your life.
