2 of 2 people found the following review helpful. Good informational bookBy Bruce H.This book is complete. It gives

you step by step instructions. Buy it at the start of your divorce proceedings. It will help with questions you never will think of. It will save you \$1000's in attorney's fees in most cases. Only the most difficult of cases (or ex spouses) may require an attorney. However, this book will still help you to ask the right questions and give you confidence (or lack of confidence) in your attorney of choice. This book provides knowledge in an area of law most of us know nothing about. It's amazing the maze of paperwork the court system requires of you to get a divorce. By auntpittypat My divorce was simple and uncontested, but it still required due diligence on my part and knowledge of court requirements. This book helped me file successfully, from beginning to end, with minimal costs. 0 of 0 people found the following review helpful. Good luck with your divorce!! By Helen Austin This is a great book if your divorce is uncontested. Good luck to all who can use it!! Helen Holroyd

With this book, Californians can obtain an uncontested divorce without hiring an attorney. The first part of the book explains in detail how to divide property and settle custody, visitation, and child support issues. The second part is a step-by-step guide through the court process, including how to complete forms, when to file them, and how to get through a court appearance or even avoid it altogether. Tear-out copies and a CDROM of all the necessary forms are included as well.
