Excellent Resource for DivorceBy Kevin AndersonNolo Press has been providing competent advice to Californians for about 35 years and this is one of their premier products. Even if you end up having to hire a lawyer, just reading this book will make you a much more intelligent consumer during a time when you may have emotional currents running through your life. I think it's well worth the price to be informed.0 of 0 people found the following review helpful. Usefule Book to Do it YourselfBy RobertI am still using this book but it seems helpful. I am a lawyer but don't practice family law. One would be amazed how foreign an area

of law can be to even a lawyer who doesn't practice in that area. My advice is try to work things out with your spouse and if that doesn't work, try to be kind to each other regardless of what the other "did to you.", avoid lawyers and use this book. If you need a lawyer try a mediator who helps with the paperwork but doesn't give just one party legal advice. 0 of 0 people found the following review helpful. if your Superior Court offers a Self Help facility By Kimberly McKay Subject matter aside, the book was very informative, covering many contingencies. The CD is totally worth it for the forms. As a side note, if your Superior Court offers a Self Help facility, use it. At the start I found I was filling out three times the forms I needed. The Self Help group guided me through the necessary forms for my county.

With *How to Do Your Own Divorce in California in 2015*, Californians can obtain an uncontested divorce without hiring an attorney. Even for couples using an attorney, this book is an essential guide to making things go smoother and includes new and revised court forms for readers. The first part of the book explains in detail how to divide property and settle custody, visitation, and child support issues. The second part is a step-by-step guide through the court process, including how to complete important forms, when to file them, and how to get through a court appearance or even avoid it altogether. The included CDROM features demo versions of Nolo's CalSupport child and spousal support calculation software, Nolo's DealMaker Settlement Agreement software, and several other bonus items.
