The Only Book of Its Kind - Worth Every Penny Many Times OverBy Avid ReaderThere is not another book that I am aware of that addresses the practical aspects of how to successfully find and engage Chinese people whose desire is to immigrate to the U.S. through the EB-5 investment visa program. Although this book is unlikely to be attractive to the general public, it should be read by contractors, real estate developers, directors of economic development, and anyone who has a business that provides service to high net worth immigrants to the U.S. and by businessmen and women who are seeking funding to expand their businesses. One hundred pages of direct contact information adds the "where to" to the "how to,' making the book far more valuable than its price.3 of 3 people found the following review helpful. Very InformativeBy Phoebe BrownThis book contains in-depth, factual information regarding the search for Chinese investors, Agents and Clients. A groundbreaking step-by-step approach that allows the readers to understand clearly how to approach your EB-5

Projects and Services. This book is a perfect compass in guiding potential investors to be successful in doing business with China as it gives a different insight to what we may be used to. It allows us to navigate without incident and helping us to anticipate problems before they manifest themselves. I would recommend this book to all parties interested in participating, advising, working or investing in the EB-5 project!

New Book: "How to Find Chinese Investors, Agents Clients for Your EB-5 Projects Services - A Practical Guide for Regional Centers, Attorneys, Developers and Businessmen" In his new book - "How to Find Chinese Investors, Agents Clients for Your EB-5 Projects Services. A Practical Guide for Regional Centers, Attorneys, Developers and Businessmen" - Dr. Gregory Finkelson unveils practical and insightful information to help business people understand the opportunities and benefits of the EB-5 program with Chinese investors. He provides additional sights and suggestions in how to navigate the sometimes shark-infested waters of the EB-5 visa program. "Gregory offers a comprehensive guide on all aspects of locating both direct clients and EB-5 agencies in China. Gregory's Practical Guide tells you how to find and approach potential partners and clients, how to introduce them to your legal and/or investment services, and how to assure them that your office or program is completely committed to their investment and immigration interests." Allan A. Samson, Immigration Attorney and Professor, San Francisco, California "I have known Dr. Finkelson since mid-90's. He has the unique ability of bridging East and West, and this book is yet another example. By providing the reader with this "one-stop" book - from finding an EB-5 agent in China, to locating clients, and setting up an office in China-he has provided an invaluable resource. He not only dispels many of the myths surrounding the EB-5 industry in China, but provides the reader with an essential road map, enabling the reader to traverse the omnipresent bureaucracy and opaque layer of intermediaries. This is the first truly essential book I have seen during that time for anyone working with EB-5 clients in China or looking to establish a foothold in the market."
