L. Ron Hubbard : How to Live Though an Executive: Communications Manual before purchasing it in order to gage whether or not it would be worth my time, and all praised How to Live Though an Executive: Communications Manual:

2 of 2 people found the following review helpful. There is nothing else out there even remotely like this book.By amateur_botanistI feel very lucky to have found a copy of this book in such good condition, to replace one I had to leave behind.If you ever want to get an idea of what a totally integrated approach to managing a group of any size looks like, start with this book."Modern" business management practices don't hold a candle to the system that Hubbard worked out. And this is only about a tenth of what he has written on the subject!0 of 0 people found the following review helpful. ValuableBy Andre Midget SimsThis book leaves no room for "misunderstandings" in any organization. A dictionary is needed to define L.R. Hubbards language.1 of 1 people found the following review helpful. To in the pastBy Brian Hill AssociatesSome very good observations and conclusions but a tad to based in the past. Well more than a tad it's out of touch with todays executive mindset.
