Some counties do handle things differently, so it is not one size fits all.My experience was that it did no good to cancel deceased person's credit cards, which was recommended in the book. They never acknowledged receipt of the letter, although I sent a self addressed stamped envelope. They still kept credit lines open and kept sending credit card checks and statements. Finally, after three years, I received a letter from one company stating that they were closing the account for lack of use. Really, what took them so long? I called and wrote them! Shishhh!Ah, but I digressed, it was a great helpful book. Even if you are not going to handle a probate yourself, I'd recommend this!Better yet....have your loved ones make a trust.2 of 2 people found the following review helpful. California Probate ProceesBy History readerThe book "How to Probate an Estate in California" by Julia Nissley is a comprehensive explanation on the proper methods to utilize to settle both simple and complex estates. Because I found it informative and well organized, it is an excellent reference source. With reference books, along with a comprehensive table of contents, the index section is very important to me. It was in the reference section, I was able to immediately go to the section of the book relating to Ex-Parte filings. Trying to understand Ex-Parte procedures is the initial reason for me to buy the book. But there is so much more information on how an estate should be properly probated through the courts. If you need information about the California Probate process, I highly recommend this book. The book is far less expensive than the hourly rate an attorney would charge to explain the California probate process.3 of 3 people found the following review helpful. A LIFE SAVER ~ Filled with useful information pull out

forms to use By Tammy A life saver!! It seems that nowadays there are NO lawyers willing to help you if you do not have a will and need to go to Probate...unless you have property and/or estate with a value of \$500,000.00 +. So this is THE BOOK that you will need. You have to read this book. This is the book that will walk you through it, step by step. Make sure you have a notebook, and a highlighter as you read. In the back there are the necessary forms that you will need to complete and this wonderful book even walks you through filling those forms out for the most part. Yes, that is why I say a LIFE SAVER!! It is a thick book to read but I also learned that usually you don't have to do this sort of thing in a rush and no matter what YOU CAN DO THIS!! Good Luck, this is a great book.
