Louis Henkin, Sarah Cleveland, Laurence Helfer, Gerald Neuman, Diane Orentlicher : Human Rights (University Casebook Series) before purchasing it in order to gage whether or not it would be worth my time, and all praised Human Rights (University Casebook Series):

The major problem is that it is still a giant book, but I can't help but wonder how big it would be if the cases weren't so edited. As it stands, it is almost impossible to cart around and bring to class. They should definitely try to get it down a bit more or split it into more than one volume.0 of 0 people found the following review helpful. This casebook provides a comprehensive, accessible, and up-to-date analysis of international human rights law. It emphasizes the relationship between the international, regional, and national legal systems (with a particular focus on the United States), features an intellectual and historical development of the idea of human rights, and analyzes recent developments in areas including corporate responsibility, terrorism and human rights, the rights of refugees, international criminal law, and the role of nongovernmental organizations. The first edition has been comprehensively revised and updated to address important and hot-button issues and topics in international human rights law.
