Practical and comprehensive, this book covers various facets of Indian patent law ranging from acquiring a patent to

enforcing and managing patent portfolios. It blends technology, management, and law to give an insight into patent concepts. Supplemented by analyses of relevant cases and illustrations, the work delves into patent aspects relating to chemistry, pharmaceuticals, biotechnology, software, electronics, and manufacturing. Discussions on skill-based aspects of patent law such as specification and claim drafting, licence drafting, patent searching, and infringement analysis have also been included in the book.
