provided on a CD, includes numerous checklists and charts, as well as individual files of expert discovery and disclosure law for each state. 3 of 3 people found the following review helpful. Injunctive Relief...By Iva Franks-Singer This is a great book and so very helpful to my business. Also helping me find where others have made mistakes. Thank you... one note (it did take a while for this book to be sent) But Happy to have it now...

The injunction is an exceptionally potent remedy, the grant or denial of which often leads to a cascade of serious consequences. This comprehensive and practical guide to injunctive relief covers all issues that are relevant to these types of motions from pre-filing considerations to appellate relief. The book also includes time-saving checklists, flowcharts to help practitioners decide whether to file such motions and statistics relating to how often these motions are granted/denied.
