Rochelle Dreyfuss, Roberta Kwall : Intellectual Property Cases and Materials on Trademark, Copyright and Patent Law (University Casebook Series) before purchasing it in order to gage whether or not it would be worth my time, and all praised Intellectual Property Cases and Materials on Trademark, Copyright and Patent Law (University Casebook Series):

0 of 0 people found the following review helpful. Pretty decent textBy 81pezPretty decent text, as far as texts go. But, its in serious need of updating, especially the patent section. This was published in 2004. Several major changes since then make some of the patent chapters severely dated. The statutory supplement helps, but even that was published in

2010, before the America Invents Act. 0 of 0 people found the following review helpful. Great for college By Kosmo Love
Interesting subject matter at a great price. 0 of 0 people found the following review helpful. Four Stars By
Flyboy
Great book in conjunction of the Casebook

This casebook applies the principles of intellectual property protection to fact patterns arising in a variety of industries, including music, art, computers, biotechnology, and industrial design. The text takes a comparative approach to intellectual property that emphasizes the commonalities and differences in the theories underlying the regimes of trademark, copyright, and patent law. State law is integrated into the discussion, comparing laws and raising issues of pre-emption as they naturally occur in cases. A comprehensive teacher's manual provides answers to the problems, discusses each case in detail, and includes background materials, hypotheticals, and suggested readings.
