**Trevor Buck : International Child Law** before purchasing it in order to gage whether or not it would be worth my time, and all praised International Child Law:

International Child Law examines the international laws for children at both a global and a regional level. In particular the UN Convention on the Rights of the Child is described and critically assessed, while at the regional level the child in Europe is examined and how far the ECHR is engaged as a vehicle to progress children's rights. Other key issues, increasingly regulated by international child law, are spotlighted: child labour, child abduction and inter-country adoption. This book provides the reader with a sound understanding of the international law framework and issues relating to children and is a useful resource to those undertaking advanced study and or research in this area.

"An invaluable book, which is quite unique" Eugenia Caracciolo di Torella, Lecturer in Law, University of Leicester  
"provides a very good overview of many of the issues pertaining to children within the international context" Shilan Shah-Davis, Senior Lecturer in Law, University of the West of England  
About the Author Trevor Buck, LLB (CNA), LLM (Lancaster) is currently serving as Chair to the Faculty/Departmental Research Committee in the Faculty of Law, University of Leicester. His research interests are public law, social welfare and family law.
