Beth Schaack, Ronald Slye : International Criminal Law and Its Enforcement (University Casebook Series)

before purchasing it in order to gauge whether or not it would be worth my time, and all praised International Criminal Law and Its Enforcement (University Casebook Series):

This casebook provides comprehensive treatment of international criminal law in a problem-oriented way. It draws

widely from the jurisprudence of the various international and hybrid criminal tribunals, United Nations bodies, regional human rights institutions, domestic courts, alternative or traditional courts, and transitional justice institutions. Its focus is on the core international crimes within the jurisdiction of the ICC, supplemented by chapters on the standalone crimes of torture and terrorism. This edition includes substantially more material from the International Criminal Court, including revised materials on the crime of aggression, and an entire chapter devoted to the creation and structure of the ICC.
