**Beth Van Schaack, Ronald C. Slye : International Criminal Law: The Essentials** before purchasing it in order to

gauge whether or not it would be worth my time, and all praised *International Criminal Law: The Essentials*:

0 of 0 people found the following review helpful. Excellent Overview  
By Cliff SI purchased this book to supplement an international criminal law program I'm enrolled in. It provides an excellent overview of the topic and is written in an easy to follow style. I have had optimum results with the Aspen books I have purchased. Like the Examples Explanation series, this is concise and to the point. This book has been useful as a cross-reference to the assigned materials I am using. Kind of like getting a second opinion, but with some added detail and endnotes for future reference. Recommended to all paralegals and lawyers interested in broadening their international law scope.  
0 of 0 people found the following review helpful. Five Stars  
By Travis Great book. Great author. This book is essential for anyone building a library on the subject. Highly recommend.

By Ethan S. Burger Made no impression.

Highly respected educator-scholars Elizabeth Van Schaack and Ronald C. Slye highlight and summarize the major concepts and themes of International Criminal Law with clear, informal language in this concise paperback text. Van Schaack and Slye provide a general overview of International Criminal Law that includes a straightforward introductory chapter, explanation and descriptions of the major international crimes, including: war crimes, crimes against humanity, genocide, aggression, terrorism, coverage of individual rights and protections and the major defenses available to International Criminal Law defendants, preferences to decisions from outside of the usual Western canon such as those from African, Asian, and Central and South American source, discussion of the growing body of international jurisprudence being generated through international tribunals, hybrid tribunals, and other sources. If you're thinking about teaching a course on International Criminal Law, you'll want to examine this timely, brief, and conceptually organized introductory text, written by two of the leading authorities in the field.
