Daniel Chow, Edward Lee : International Intellectual Property: Problems, Cases and Materials, 2d (American Casebook Series) before purchasing it in order to gage whether or not it would be worth my time, and all praised International Intellectual Property: Problems, Cases and Materials, 2d (American Casebook Series):

Chow and Lees International Intellectual Property: Problems, Cases, and Materials addresses the latest developments in U.S., EU, and WTO law. It contains numerous new cases, replacing older ones. The text remains concise and retains the features of the first edition that made it popular: clear expositions of the law and many short, practical, and

straightforward problems that liven class discussions and draw home the lessons to the students.
