Lori Damrosch, Louis Henkin, Sean Murphy, Hans Smit : International Law, Cases and Materials, 5th (American Casebooks) (American Casebook Series) before purchasing it in order to gage whether or not it would be worth my time, and all praised International Law, Cases and Materials, 5th (American Casebooks) (American Casebook Series):

0 of 0 people found the following review helpful. Very good condition. Good price for such an expensive bookBy Tia A. Very good condition. Good price for such an expensive book. I bought it for an undergraduate international law

class. I ended up not needing the book as the professor provided detailed outlines. But it was still nice to have and even read. The language is not very easy to understand - as it is for law students. But it was still a very informative book. 1 of 1 people found the following review helpful. Needs Editing By Jimmy Jam There aren't many international law casebooks out there, so I guess it's not surprising that no one seems to know how to write a decent one yet. This book is so full of rambling "commentary" and fine-print minutiae that you won't really emerge with a clear understanding of international law. The book is a decent compendium of cases, but don't expect intelligible insights from the author. 0 of 0 people found the following review helpful. Four Stars By zahid hossain The book condition is alright

This classic International Law casebook is fully updated to cover key developments, such as the International Court's Israeli Wall and Serbia Genocide decisions, Kosovo's declaration of independence, U.S. Supreme Court judgments in *Sosa* and *Medellin*, and much more. With extraordinary range and depth, the casebook provides both new and experienced teachers with ample material for educating students and provoking exciting classroom discussions. Designed for introductory and advanced classes, with detailed readings on the fundamental structure and actors of international law, but also on more specialized subject matter areas (human rights, military force, international criminal law, law of the sea, environment, etc.).
