Nigel Lowe, Michael Nicholls, Mark Everall : International Movement of Children: Law Practice and Procedure before purchasing it in order to gage whether or not it would be worth my time, and all praised International Movement of Children: Law Practice and Procedure:

Written by three of the UK's leading child abduction specialists, this book is the most authoritative and comprehensive

text available on this highly complex and technical topic. The book deals with both lawful movement and abduction of children into and out of the UK, including full coverage of the criminal law. It contains information and case law from important overseas jurisdictions to enable practitioners to advise parents of abducted children on the likely responses of foreign courts. Also included are relevant source materials and precedents, as well as full details of central authorities and other relevant agencies both in the UK and elsewhere. The book will be of value to family law practitioners as well as to the police, local authorities and all government officials in or with the UK working in this area.
