The "International Survey of Family Law," published on behalf of the International Society of Family Law, is the successor to the Annual Survey of Family Law'. It provides information, analysis and comment on recent developments in Family Law across the world on a country-by- country basis. The Survey is published annually and its subtitle reflects the calendar year surveyed. Where a country has been regularly surveyed each year, the developments discussed correspond to the year in question. If certain countries have not been surveyed for some years the contributions will usually attempt to cover the intervening period. This applies, for example, in the present volume to the contributions relating to China and Turkey. If countries are being covered for the first time, then more background information will be provided about the state of family law in the country in question. Examples in this volume are the contributions from Bulgaria and Malta.
