Andrew Guzman, Joost H.B. Pauwelyn : International Trade Law, Second Edition (Aspen Casebooks) before purchasing it in order to gage whether or not it would be worth my time, and all praised International Trade Law, Second Edition (Aspen Casebooks):

Mostly it is a collection of papers or artiles about the subject of the chapter or a very heavily edited version of the dispute rulings. It makes it very hard to figure out how the GATT and WTO articles work together. Once in a while, there will be a couple paragraphs that are very clear and helpful but they are few and far between. What is also

hard is the papers are written by different scholars so its hard to get a feel for their style. I feel like this is the material that would be gathered during the research phase of a topic, but instead of refining and rewriting, they just copied and pasted the book together. Its a shame because this is one area of law that I am very interested in.0 of 0 people found the following review helpful. Five StarsBy Julian GrahamGood quality, helpful textbook.

Guzman, based in the United States with a PhD. in economics, and Pauwelyn, based in Europe with experience working for the WTO secretariat, bring an international and methodological perspective to this comprehensive text. Appropriate for a two- to three-hour international trade course, International Trade Law covers all aspects of WTO law, including trade in goods, services, and TRIPS. Using classic and recent cases, stimulating questions and insightful explanatory material, this text provides a balance of positive and normative approaches, mixing legal decisions with analysis of the challenges facing the international trading system. The Second Edition has been updated to include recent political and economic events, issues and policy debates, and supplements new developments in case law with additional questions. Hallmark features: Prepared by two leading WTO scholars providing a balanced international and methodological perspective. Up-to-date, discriminating case selection presents both classic cases and recent doctrine. Contextualizes international trade issues with insights into key economic factors at work. Key WTO cases are edited and presented to illustrate and teach central concepts and doctrine. Illuminating introductory and explanatory material throughout. Helpful summaries of key teaching points are included in each chapter. Well-crafted questions stimulate class discussion on policy issues. Manageable length for two- and three-credit courses. Adaptable to graduate-level courses in international trade. Comprehensive Teachers Manual with answers to questions as well as teaching suggestions, tips, and supplementary material appropriate for class discussion. Complemented by a thorough and up-to-date documents supplement. The Second Edition has been revised to include: Updates for currency, including: Transition from the Bush administration to the Obama administration. The global financial crisis. Deadlock in the Doha Round of trade talks. Impasse in regional trade deals. Protectionist pressure discussion, with examples from U.S. and Europe. Status of the EC Hormones dispute. New EU GSP scheme. Coverage of debates on industrial policy, especially in China and other emerging countries. More extensive discussion of the negotiating history surrounding the mergence of the GATT in 1947. New case law, including: Key TRIPs cases. U.S.-China (Poultry) U.S. (Cotton 21.5). Colombia (Ports of Entry). Thai (Cigarettes). China (Audiovisuals). U.S. (AD CVD). U.S. (Aircraft). U.S. (Tyres)
