before purchasing it in order to gage whether or not it would be worth my time, and all praised International Trust and Divorce Litigation:

This new work is an invaluable source of detailed information in respect of international trusts, viewed in a divorce law context, and includes an offshore perspective. It provides a readable, yet authoritative, analysis of such topics as forum shopping, conflicts of law, enforcement, and asset protection legislation. *International Trust and Divorce Litigation* will be an indispensable practical guide for offshore lawyers, trust companies, private bankers, and matrimonial lawyers who represent high net worth clients.
