Catherine Mitchell : Interpretation of Contracts (Current Controversies in Law) before purchasing it in order to gage whether or not it would be worth my time, and all praised Interpretation of Contracts (Current Controversies in Law):

In this volume Mitchell examines case law, academic debate and the resurgence of interest in formalist contract interpretation in the US to explore the meaning of contextual interpretation, arguments for and against it and suggestions on how parties may influence the interpretation methods applied to their agreement. Identifying controversial issues, arguments and analyzing possible future developments, this book addresses a range of questions, including: How far should it be possible for courts, through the process of interpretation, to control the bargain made between parties? Are judges applying the principles of interpretation in the same way? What is the relevant context of an agreement? Should contracting parties be able to opt out of a particular interpretative approach by use of mechanisms such as entire agreement clauses? Short and concise, this is a useful reference tool for those interested in contract and tort law.

About the Author Catherine Mitchell is Senior Lecturer in Law at the University of Hull.
