**William Burnham : Introduction to the Law And Legal System of the United States** before purchasing it in order to gage whether or not it would be worth my time, and all praised Introduction to the Law And Legal System of the United States:

5 of 5 people found the following review helpful. Not a sleeping pillBy T. KellerBurnhams book on U.S. law and its legal system is great for anyone who wants to learn or study U.S. law. It is comprehensive in that it provides the basics on the most important parts of substantive and procedural law. For foreign law students and jurists in particular it gives a well written and very understandable introduction into U.S. law. Professor Burnham seems to intentionally adress "foreigners" in certain sections explaining the similarities, but also the existing differences between the common law system and the civil law system (as he defines the central European legal system). This makes many topics easier to

understand for outsiders. The in depth explanation of the adversary system and its implications for some U.S. particularities is also valuable, as are the guidelines for legal research. Buy this book for starting to learn U.S. law or as a reference book. I grab it now and then just because it actually offers good and informative reading. (This review is based on the First Edition of the book) 0 of 0 people found the following review helpful. Five Stars By Luiz Otavio Monte Vieira da Cunha Excelent 0 of 0 people found the following review helpful. Five Stars By d91141448 Good condition.

Intended for law students, lawyers, and legal scholars from foreign countries; U.S. graduate and undergraduate college students; and members of the general reading public in the United States. For use as the text of an introductory course on U.S. law, as a reference, or for self-study.
