**Martin A. Frey : Introduction to the Law of Contracts (Hardcover)** before purchasing it in order to gage whether or not it would be worth my time, and all praised Introduction to the Law of Contracts (Hardcover):

3 of 3 people found the following review helpful. Not For BeginnersBy cailley apodacaI so wanted to like this book. This is the final class for the paralegal program I am in and since contracts are a huge portion of law I wanted to really understand it. With that being said, this book does not help. To echo other reviews, it is written in legalese. This is not even the biggest problem. As an introductory book this does nothing but repeat itself far too many times, confuse me and has far too many pages per chapter. It is too much to grasp as a paralegal student. The paragraphs read like tongue twisters. I have to read chapters numerous times to even begin grasping what the author is trying to say. Do yourself a favor and get a different book. Incredibly convoluted and unhelpful.2 of 2 people found the following review helpful. Difficult to readBy DMMI am currently taking this class online and find the support minimal. There are no explanations after the exercises which are throughout the chapters. The book appears on the onset to be well organised but the writing is confusing and I find myself frequently researching online through other avenues to unravel what has

been written. I am attempting to find another book to supplement this so I can understand fully what they are attempting to say. 0 of 0 people found the following review helpful. Five Stars By Pacovery good

An Introduction to the Law of Contracts is now out in its fourth edition. It is still carefully organized around a comprehensive road map that takes the student through the 6 steps of contract law, but the new edition includes added benefits. There are updated cases and examples, and each chapter ends with review questions to help reinforce the theories addressed in each chapter. The chapters also end with a checklist that helps to highlight the key concepts for the paralegal student. The first of 6 steps investigates what body of law applies to the transaction. The next step addresses the formation of a contract, offer and acceptance. Step 3 develops limitations on the party's freedom to contract, and concepts such as infancy, illegality, duress, and unconscionability are explored. The next step looks at the plaintiff's allegation of the defendant's breach. Step 5 organizes the defendant's responses to the plaintiff's allegation of breach, categorizing it into one of two basic types that is then further explored. The final step develops the plaintiff's remedies for the defendant's breach of contract. With this step both the Common Law and UCC Article 2 remedies are explored. The text also makes reference to international arbitration based on the fact that over 90% of international contract disputes are resolved through international arbitration rather than litigation. Paralegal students will benefit from this thorough and highly readable text that is completely current and has a focus on retention.

The organization of the material is quite good. Taking a contract from beginning to end is a very logical approach to learning about contracts. There is no extraneous material. The depth of the content is also quite appropriate. I would probably consider adopting the book even without changes, as it looks like a very interesting and easy to read book on contract law targeted specifically for paralegals, and such a book is fairly rare right now. About the Author Martin A. Frey, BSME, JD, LL.M., is a Professor Emeritus at The University of Tulsa, Tulsa, Oklahoma, Senior Adjunct Settlement Judge for the United States District and Bankruptcy Courts for the Northern Districts of Oklahoma, and was the Reporter for the Civil Justice Reform Act Advisory Group for the United States District Court for the Northern District of Oklahoma. He was a professor at Drake and Texas Tech Universities and a visiting professor at the University of Maine, Washington University (St. Louis), the University of Alabama, Wake Forest University, Stetson University, and Florida International University. When teaching, Professor Frey served on a number of site visitation teams for the Section on Accreditation and Admission to the Bar of the American Bar Association. Professor Frey currently volunteers with the Financial Crimes Unit of the Tulsa Police Department. He is the author or co-author of "The Little Black Book, A Do-It Yourself Guide for Law School Competitions" (Carolina Academic Press, 2002); "Alternative Methods of Dispute Resolution" (Delmar Learning Thomson, 2003); "Introduction to the Law of Contracts, 4th Edition (Delmar Cengage Learning, 2008); "Introduction to Bankruptcy Law, 6th Edition (Delmar Cengage Learning, 2013); and "Essentials of Contract Law," 2nd Edition (Cengage Learning, 2015).
