**Paul R. McDaniel : Introduction To United States International Taxation, Sixth Edition (Aspen Student Treatise)** before purchasing it in order to gage whether or not it would be worth my time, and all praised Introduction To United States International Taxation, Sixth Edition (Aspen Student Treatise):

1 of 1 people found the following review helpful. Well worth it.By Zm3400This book condenses the basics of international tax succinctly. The teacher was ineffective in teaching the material and I had to learn the material myself. This book saved me from a horrible grade. I could've paid the \$70 for this book instead of course credits and I still learned more out of this book.
