**Naira R. Matevosyan : ISOIMMUNIZATION IN PREGNANCY: Medical Legal Survey** before purchasing it in order to gage whether or not it would be worth my time, and all praised ISOIMMUNIZATION IN PREGNANCY: Medical Legal Survey:

The current evidence-based guidelines highlights the core aspects for diagnosis and clinical decision rules in the intricate cases of Rhesus isoimmunization in pregnancy. Providing with in-depth analysis of judgments entered in medical negligence suits, it covers legal theories, holdings and rationale - apropos the various arrays of causality. Its breadth of scope, combined with multiple-choice review questions and answers for both medical and legal units, makes it a perfect resource for addressing situations in the wards and in the courts.
