**From Brand: Stockholm Inst for Scandinavian Law : It Law (Scandinavian Studies in Law)** before purchasing it in order to gage whether or not it would be worth my time, and all praised It Law (Scandinavian Studies in Law):

0 of 0 people found the following review helpful. Extraordinary workBy Jorge E. Galvis TovarAn anthology of extremely high quality academic essays written by lecturers and researchers from Stockholm University Master in Law and Information Technology, it transcends as a remarkable piece among Scandinavian Studies in Law collection. With strong North European perspective, fundamental and contemporary topics in Law and IT are dealt in comprehensive and innovative way. Materials are presented by chapters with particular contributions from many

distinguished authors in Scandinavian Academia: Introduction-Fundamentals of IT Law, Contracts and E-Commerce, Intellectual Property Rights, E-Government and Public Administration, Privacy and Data Protection, Ethics, Criminality and Misuse, Jurisdiction and Procedure, and Theoretical Issues and OutlookIt is both easy-to-read, and at the same time rigorously presented. Recommended for both the beginner and the specialized scholar.

The progress of information and communication technology (IT) has surpassed all expectations. IT is affecting almost every aspect of human life and the development can be expected to continue as the technology becomes more advanced and costs continue to drop.The Scandinavian countries have long been in the forefront when it comes to the use of IT, mobile telephones and the Internet. The awareness of technical potentialities is reflected in a longstanding jurisprudential interest in the field.The Swedish Law and Informatics Research Centre for Computers and Law held its first seminar in 1970, and, not surprisingly, the activities in this field are presently more intense than ever. Following this tradition, this volume presents 27 newly written articles on current legal issues relating to IT. The contributors are all scholars and practitioners active in Denmark, Finland, Iceland, Norway and Sweden.
