**From Hart Publishing : Law and Outsiders: Norms, Processes and 'Othering' in the Twenty-first Century** before purchasing it in order to gauge whether or not it would be worth my time, and all praised Law and Outsiders: Norms, Processes and 'Othering' in the Twenty-first Century:

Law and Outsiders is a collection of essays examining cutting edge developments in law. Thirteen essays from leading young scholars cover five important areas of legal scholarship: adjudication, European law and politics, migration, vulnerable minorities, and legal values. The recurring theme in the volume is the way in which rules and processes are contributing to the creation of 21st Century 'others' in areas such as domestic constitutional systems, international security and migration, and global human rights discourses. The essays are drawn from the second International Graduate Legal Research Conference, held at King's College, London in June 2008.
