found the following review helpful. Law Dictionary for Non-Lawyers By James W. Preston, Sr. Unfortunately, this book was too basic and left a lot to be desired. I've seen better and have better from other sources. I was disappointed because I've been around the legal profession for several years as a (non-attorney) advocate with legal training from university law professors. I specialize in administrative litigation and this book was no help to me. 0 of 0 people found the following review helpful. Good quality! By Customer Looks brand new. Good quality!
