This book is required for many legal bibliography/Legal Research courses. I have seen other books and this one is definitely better than most, however the main issue is not with the book itself, but the fact that even by dividing the exercises out, with this many people searching for the same exact references (sometimes non-existent in the form indicated in the book) then it becomes difficult in a crowded library.

My advice is do this with a partner right after class before people start rushing for the same books close to class time. 1 of 1 people found the following review helpful. Thank you a lot Nancy Johnson! 3 of 3 people found the following review helpful. Great resource By Patricia a kidd This is a great book for begining legal researchers. It can even be used for people who are a little rusty at research. It helped a lot.

This legal research exercise book helps students master efficient legal research skills through challenging in-depth problems. The 11th edition contains fifteen assignments, with all new problems. For each assignment, there are two variations using the print materials, along with one exercise using Westlaw and one exercise using LexisNexis, which is the format adopted in the 10th edition. The new edition's questions/answers follow the 19th edition of The Bluebook: A Uniform System of Citation (2010). This format provides instructors more flexibility in what exercises they assign and when they assign them. The assignments cover basic legal research, including reporters, digests, citators, statutes, and advanced materials including federal legislative history and federal administrative law. There are also review problems, appropriate for basic and advanced legal research classes.
