**Nancy P. Johnson, Susan T. Phillips : Legal Research Exercises Following the Bluebook (Tenth Edition)** before purchasing it in order to gage whether or not it would be worth my time, and all praised Legal Research Exercises Following the Bluebook (Tenth Edition):

This book is required for many legal bibliography/Legal Research courses. I have seen other books and this one is definitely better than most, however the main issue is not with the book itself, but the fact that even by dividing the exercises out, with this many people searching for the same exact references (sometimes non-existent in the form indicated in the book) then it becomes difficult in a crowded library. My advice is do this with a partner right after class before people start rushing for the same books close to class time.1

Thank you a lot Nancy Johnson!3 of 3 people found the following review helpful. Great resourceBy Patricia a kiddThis is a great book for begining legal researchers. It can even be used for people who are a little rusty at research. It helped a lot.

This legal research exercise book helps students master efficient legal research skills through challenging in-depth problems. The 10th edition contains all new problems and a new format covering both print and electronic resources. Assignments have two variations using print materials, one variation for Westlaw, and one variation for LexisNexis. This format provides instructors more flexibility in what exercises they assign and when they assign them. The assignments cover basic legal research, including reporters, digests, citators, statutes, and advanced materials including federal legislative history and federal administrative law. There are also review problems, appropriate for basic and advanced legal research classes.
