Sonja Larsen : Legal Research for Beginners before purchasing it in order to gauge whether or not it would be worth my time, and all praised Legal Research for Beginners:

2 of 2 people found the following review helpful. Basic but Necessary Information By Marlene R. I still own this "go-to" book. I don't know why is asking me, years later, to review it now. It explains how to do your own legal research in a law library, describes the types of law (common, civil and criminal), which states are in which Circuit for the Courts of Appeals (First to Eleventh, District of Columbia and Federal), doing a search using an Index system, Shepard's

Citations, using Lexis, how to read a case citation and so on. All the basics are here. This book is copyrighted in 1997. The information is probably still useful, but I am sure a lot of it is updated now, so see if there isn't a newer version before purchasing this particular book. 0 of 0 people found the following review helpful. Five Stars By Mitchell Sliwinski Book is good. 0 of 0 people found the following review helpful. It was very informative as I expected. This kind ... By LUIS BURGOS It was very informative as I expected. This kind of book is very important to have when we don't have a lot of experience because it shows you how to do the basics and you can take it from that point on. Thank you very much for everything, sincerely, Luis R. Burgos.

Non-lawyers are likely to be intimidated by the rows of books in any law library-but laypersons can often profit by doing needed legal research for themselves. Here's a user-friendly volume that will help them find their way through the complexities of law. Each chapter addresses a different legal issue and shows how to go about researching it. Helpful hints throughout the book give practical tips on conducting a thorough research project.
