Robert Berring : Legal Research (Sum + Substance CD Series) (Outstanding Professor Series) before purchasing it in order to gauge whether or not it would be worth my time, and all praised Legal Research (Sum + Substance CD Series) (Outstanding Professor Series):

0 of 0 people found the following review helpful. Nothing to see here. Or hear here. Move along. By David BreshearsWaste. You could get better info from a law librarian. 2 of 2 people found the following review helpful. They are OK for an introduction. By R. H. This is basically an overview. It did not help me on the final exams, and if did nothing for me on study for the California Bar FYLSX. I cannot recommend using this product. Instead, buy a Gilbert's Law Summary for the subject you want and a Case Brief Book to get what you need out of the subject matter. Best wishes for much success, always! 1 of 1 people found the following review helpful. Essential for anyone in or planning on law school! By G. Miller These CDs are fantastic! Listening to these will give you a firm foundation in starting 1L and in legal research and writing class. They don't teach you most of this stuff and you'll be expected to know it anyway. I don't have a lot of time to read, but I do have a long commute to listen and these have been a lifesaver!
