**Judy A. Long : Legal Research Using the Internet** before purchasing it in order to gauge whether or not it would be worth my time, and all praised Legal Research Using the Internet:

0 of 0 people found the following review helpful. Don't Bother By California Lawyer I've never bothered to review a book that I didn't like, but I had to keep others from making the same mistake I did. The fact that this book is so old should have tipped me off. The information is way out of date. Even if it was up to date, it's way too basic even for an unsophisticated searcher like me. I expected it to be a step-by-step guide on how to research and use sites, but it is just lacking. There are better books out there for doing legal research on the internet.

For all legal professionals, *Legal Research Using the Internet* is a valuable guide to finding and utilizing the legal resources available on the Internet. It lists hundreds of helpful sites and includes a step-by-step "map" that helps readers easily navigate through the sites. Go to [WestLegalStudies.com](http://WestLegalStudies.com) for additional links.

About the Author Judy A. Long, J.D., is a retired College Professor/ Paralegal Program Director and retired Attorney and has written several books focusing on paralegal education.
