Michael D. Murray, Christy H. DeSanctis : Legal Research, Writing and Analysis (Legal Research and Writing) before purchasing it in order to gage whether or not it would be worth my time, and all praised Legal Research, Writing and Analysis (Legal Research and Writing):

Highlights of this offering from Murray and DeSanctis' Legal Research and Writing include: Use of the TREAT paradigm and the doctrine of explanatory synthesis which are superior rhetorical devices to maximize the persuasive potential of adversarial legal writing; Multiple annotated samples of each form of work product (pre-trial motions to

dismiss and motions for summary judgment, a writ petition, and appellate briefs) rather than offering one or two unannotated model briefs; An in-depth analysis of oral argument and moot court skills and strategies; Written by law professors with substantial experience in litigation in trial and appellate courts, one of whom is a former member of a national champion moot court team; Well suited for use in a second semester Introduction to Advocacy or Legal Writing course, or an upper division trial and appellate advocacy or advanced writing course.
