Stanis Frankowski : Legal Responses to AIDS in Comparative Perspective Balancing Individual Rights and Societal Interests (Current Issues in International and Comparative Law) before purchasing it in order to gage whether or not it would be worth my time, and all praised Legal Responses to AIDS in Comparative Perspective

Balancing Individual Rights and Societal Interests (Current Issues in International and Comparative Law):

A collection of ten essays on legal responses to HIV/AIDS, written by scholars from five continents (Africa, Asia, Australia, Europe and America). Each essay deals with HIV/AIDS-related problems in the author's country. An effort was made to select highly-diversified countries belonging to different families of law, the countries varying in their political, ethnic, and religious backgrounds.

"This book serves as a useful contribution to the sparse comparative literature on AIDS and the law worldwide and it also provides a case study for possible legal and social responses to a health emergency of epidemic proportions."

"International Journal of Legal Information," 28:2 (2000). "This is ... a remarkable book and is highly recommended for lawyers and non-lawyers alike concerned with societal responses to the pandemic." "European Journal of Health Law," 8."This book serves as a useful contribution to the sparse comparative literature on AIDS and the law worldwide and it also provides a case study for possible legal and social responses to a health emergency of epidemic proportions.' International Journal of Legal Information, 28:2 (2000). 'This is ... a remarkable book and is highly recommended for lawyers and non-lawyers alike concerned with societal responses to the pandemic.'
