Not useful, badly written, and way too expensiveBy MattIt's pretty hard to take a book on writing seriously when it's written this badly and fails to follow its own advice. Here's an example --a sentence lauding the active voice:"With active voice, the writer starts with an actor who performs the action, and this development IS FOLLOWED as the sentence is read."Nuff said?0 of 0 people found the following review helpful. DisappointedBy Daniel VellucciI was looking for a book to prepare me for a contract administration class. Interesting, but I was seeking how to author and considerations when writing clauses.0 of 0 people found the following review helpful. Five StarsBy NikkiGreat value and in good condition!
