Not terribly helpfulBy Rita C GreggioI bought this because my outline was nowhere near finished near exam time, and I needed to put the material into some sort of perspective. I had never used a commercial outline before (other than as a supplement to check my own outline) and that could be why I was fairly disappointed by this outline. I didn't understand why they chose the cases they included in the outline, as they didn't seem that seminal to me. That being said, it was somewhat useful, though I don't really recommend it.0 of 0

Legalines offer the best in review materialsBy A CustomerI have come to expect the best from the Legalines series, and they have usually delivered. These are the best of the variety of legal supplements and hornbooks I have used in my 2 years at law school (including Nutshell, Emmanuel and Casenotes). This book offers a compact, yet fairly detailed, look at wills and estates. It is keyed directly to the Dukeminier casebook, so it is easy to locate the section of the text you need help in. I appreciated this exactness when making my own outline...I didn't need to constantly flip through pages to match my notes, text and supplement. I also liked the plain, succinct explanations the book gave on each section of the law. I found their treatment of the degree of relationship scheme and various inheritance order systems and particularly helpful. Their case summaries are also well organized, dividing each case by its facts, issue(s) and holding(s). I would recommend this series of supplements to anyone, even if just used to assist in your own outline.

Legalines gives you authoritative, detailed briefs of every major case in your casebook. You get a clear explanation of facts, the issues, the courts holding and reasoning, and any significant concurrences or dissents. Even more importantly, you get an authoritative explanation of the significance of each case, and how it relates to other cases in your casebook. And with Legalines detailed table of cases, you can quickly find any case or concept youre looking for. But your professor expects you to know more than just the cases. Thats why Legalines gives you more than just case briefs. You get summaries of the black letter law as well. Thats crucial because some of the most important information in your casebooks isnt in the cases at all its the black letter principles youre expected to glean from those cases. Legalines is the only study aid that gives you both case briefs and black letter review. With Legalines, you get everything you need to know whether its in a case or not!
