**Joachim Schafer, Guylaine Lanctot : Les Affranchis de l'an 2000** before purchasing it in order to gage whether or not it would be worth my time, and all praised Les Affranchis de l'an 2000:

This book is in English. "I am a free physician" Canadian Medical Doctor Guylaine Lanctot told her accusers and with that she dumped her judges and simply left the court. This is an account of the hearings before the Quebec College of

Physicians Medical Board gleaned from the two thousand pages of official trial transcripts, personal insights by Doctor Lancot, and the testimony of witnesses who were not heard.
