Deborah Hinton : Lessons Unlearned before purchasing it in order to gage whether or not it would be worth my time, and all praised Lessons Unlearned:

Deborah Hinton, a single mother, chronicles the true story of the abduction of her 4 1/2 year old daughter, Summer-

Raye Horton, by the hands of her very own mother, step-father and child's father, and her bizarre journey through the legal family court system for the return of her child. This memoir spotlights how broken our family court system is while provoking the question of how far a parent should go for the return of their child.
