Philip Kolvin : Licensed Premises: Law, Practice and Policy: Second Edition before purchasing it in order to gage whether or not it would be worth my time, and all praised Licensed Premises: Law, Practice and Policy: Second Edition:

This second edition - previously titled *Licensed Premises: Law and Practice* - focuses on UK licensing law legislation and what it means for professionals working in this area. It provides practical coverage of the UK's Licensing Act 2003. The structure of the book adopts a unique QA approach to relevant case law and legislation, making it a highly accessible text. The legislative changes that are covered include summary reviews and closure orders, the ability of licensing authorities to add conditions to licenses, and lap dancing.

Philip has drawn upon a wide range of expert practitioners to contribute to various chapters. The overall effect is not only very impressive but extraordinarily useful. With an innovative approach toward the layout, this promises to be an authoritative and extremely heavily used text...I have little doubt that it will form a central part of the licensing practitioner's bookshelf and it is highly recommended. James Button Co Solicitors
About the Author Philip Kolvin QC, is Head of Chambers at Cornerstone Barristers. He is also the Chairman of the Purple Flag Advisory Board, and was Chairman of the Institute of Licensing from 2004-2011.
