**From Brand: CRC Press : Life Care Planning and Case Management Handbook, Third Edition** before purchasing it in order to gage whether or not it would be worth my time, and all praised Life Care Planning and Case Management Handbook, Third Edition:

0 of 0 people found the following review helpful. Five StarsBy andrew garlisiGood resource0 of 0 people found the following review helpful. Good resource.By Ervanna BruggerThis book gives a lot of examples of how to do a life

care plan for many disease/disabilities. Good resource.0 of 0 people found the following review helpful. Four StarsBy TTreigerUse this as a reference text.

Life Care Planning is an advanced collaborative practice concerned with coordinating, accessing, evaluating, and monitoring necessary services for individuals with significant medical adversity. This handbook provides a comprehensive resource for all people involved with catastrophic impairments who need to solve complex medical care problems. Updating life care planning references, the third edition presents new chapters on home assessments, vehicle modification, day-in-the-life videos, and elder care. This edition also adds several new contributors who have completely rewritten or updated several chapters. The text offers an overview of issues relevant to selected disabilities, bringing together various concepts of life care plans into one publication and reviewing current thoughts, beliefs, and procedures. The book begins by defining the roles played by each of the key team members working with the life care planner. It provides planners with insights critical to successful interactions with medical and health-related professionals as well as the team members they are most likely to encounter as they work to build a successful and accurate life care plan. Next, the book offers up-to-date information on the disabilities most frequently encountered by the life care planner. The contributors also address issues typically left out of similar texts which have been made critical by *Daubert v. Merrell Dow* in the forensic setting issues related to ethics, standards, research and credentials. *Build a Client-Centered Life Care Plan Includes the Updated Standards of Practice from the International Academy of Life Care Planners (IALCP) Supplies Valuable Step-by-Step Charts and Checklists Completely Revised and Expanded with Five New Chapters*

The Nurse Life Care Planner will find useful updates in every section. Novice and seasoned Nurse Life Care Planners will appreciate the detailed insights these sections offer when including plan recommendations for collaboration. The extensive appendices in each chapter have been updated with information on new technologies, vendors, legal concepts, certifications, and support resources for Life Care Planners and clients. *Life Care Planning and Case Management Handbook* continues as one of the best resources of its kind. *AANLCP JOURNAL OF NURSE LIFE CARE PLANNING*, Summer 2010 I extend my congratulations to Dr. Weed and coeditor Dr. Berens and all of the contributors on an excellent work. I also continue to congratulate those with the insight to be working with a copy of this text on their desktop. From the Foreword, Paul M. Deutsch, PhD, CRC, CCM, CLCP, FIALCP, Licensed Mental Health Counselor, Chair of the Foundation for Life Care Planning Research Praise for the Second Edition a definitive resource, not only for the novice and experienced life care planner or case manager, but also for the team of medical, vocational, and legal professionals who develop plans/delineate future costs. This text is highly recommended, without reservation (even for those who have the first edition on their bookshelf)! Ann T. Neulicht, PhD, CLCP, CRC, CVE, CDMS, LPC, Diplomate, American Board of Vocational Experts in Rehabilitation Planning a publication that will advance our profession while providing life care planners with a valuable resource and guidebook for advancing the state of their career. Doreen Casuto, RN, BSN, MRA, CRRn, CCM, CLCP, *Journal of Life Care Planning* About the Author Roger Weed, PhD, LPC, CRC, CDMS, CCM, FNRCA, FIALCP, professor and graduate rehabilitation counseling coordinator at Georgia State University, is a licensed professional counselor, certified rehabilitation counselor, certified disability management specialist, certified case manager, fellow of the National Rehabilitation Counseling Association, and fellow of the International Academy of Life Care Planners. Dr. Weed is the ethics chair for the International Academy of Life Care Planners and associate editor of the *Journal of Life Care Planning*. He is also the recipient of the lifetime achievement award from the sponsors of the annual life care planning conference. Debra E. Berens, PhD, CRC, CCM, CLCP, is a certified rehabilitation counselor, certified case manager, and certified life care planner in private practice in Atlanta, Georgia. In 2001, she completed a 5-year term as commissioner on the national Commission on Rehabilitation Counselor Certification (CRCC) and later was a member of the five-person task force responsible for revising the Code of Ethics, Standards of Practice, and Competencies for the International Association of Rehabilitation Professionals (IARP). Dr. Berens is currently the managing editor of the *Journal of Life Care Planning*.
